

# USER STORIES

## MAP

As a learning user  
I want to make it  
easy to meet  
tourists of my  
interest on the  
map.

## SECURITY

As a learner, I  
want to be able  
to provide safety  
as well as to be  
able to rate my  
companions and  
be guided by  
these ratings.

## PROFILES

As a learning  
user I want a  
system to see  
the profile of the  
tourists with  
some of their  
most important  
data.

## MESSENGER

As a learning  
user I want a  
messaging  
system to be  
able to talk to  
tourists to  
agree on  
activities.

## MAP GUIDE

As a new user I  
want the map  
to guide me  
safely to find  
tourists.
